F₁ PETUNIA

F₁ PETUNIAS were sellouts with most growers. Their seed orders for next spring's planting are larger. What more can we say? Fresh seed is expected Sept/Oct next. Your order can be shipped any specified time thereafter.

Two new varieties this year are:

Pekin scarlet—a color we prefer to Comanche and a dwarf plant in the large flowered plain edge group

Canton dwarf blue—a distinctive rich velvety tint

The full list is as follows:

F₁ Petunias surpass open pollinated strains in uniformity of plant habit, flower size, style, and color. They are also much more floriferous. They can be brought to flower quickly for early pot sales. Their usefulness as specimen plants is outstanding. Their uniform habit makes them delightful border subjects. Their solid profuse flowering habit establishes them as wonderful for bedding.
